What is the standard of due diligence?

Taking all reasonable care to protect the well-being of employees or co-workers.

What is the *defense* of due diligence?

All reasonable precautions to comply were taken in the circumstances.

What is the test of due diligence?

Documentation of an effective OH&S program; an effective OH&S program includes:

- ☑ A written OHS program that has been implemented.
- ☑ An employer who takes steps to control or eliminate specific hazards.
- ☑ Written safe work procedures that are understood and followed by workers.
- Workers who are provided with adequate instruction, training, supervision and discipline to work safely.

How can this checklist help?

Workplace (specify):

substances

☐ OH&S related budget items and purchase orders

The following checklist is intended to help employers determine if they have sufficient documentation of an effective OH&S program. Other due diligence factors to consider include health and safety performance in the workplace, the employer's history of compliance with the Workers Compensation Act and OH&S Regulation, the degree of hazard associated with violations, etc. This checklist is only a guideline.

Part 1: Does the employer keep the following types of records or documents?							
☐ Worker orientation records	☐ Records of worker/supervisor training showing the date, names of attendees and topics covered (e.g. Lockout, WHMIS)						
☐ Inspection reports and records of corrective actions taken to solve problems	☐ Incident/accident investigation reports and records of corrective actions taken to solve problems						
Records of meetings and crew talks where safety issues were discussed	☐ Supervisor's notes and logs of safety contacts with workers						
☐ Records showing use of progressive discipline to enforce safety rules and written safe work procedures	☐ Joint OH&S Committee meeting reports showing steps taken to address health and safety issues						
☐ Subcontractor pre-qualification documents	☐ Equipment log books and maintenance records						
☐ First aid records, medical certificates, hearing tests	☐ Forms and checklists showing the employer requires workers to follow safe work procedures (e.g. confined space entry permits)						
☐ Sampling and monitoring records of exposures to harmful	☐ Emergency response plan and record of drills and any resulting						

improvements

☐ Statistics on the frequency and severity of accidents

Part 2: Do the employer's records or documents show an effective OH&S Program?

D ₀	records/documents indicate that the employer/management:		
1.	State and communicate a clear workplace OH&S policy	Yes	Ю
2.	Assign responsibility and resources for implementing OSH Program to identified person(s)	Yes	Ю
3.	Include workplace OH&S issues on management meeting agendas	Yes	lo
4.	Require contractors to conform to OH&S regulations	Yes	Ю
5.	Ensure records are maintained (See Part 1)	Yes	lo
6.	Review statistics on the frequency and severity of accidents, as well as injury and illness trends	Yes	Ю
	over time		
7.	Assign responsibility for identifying hazards and conducting risk assessments	Yes	Ю
7. 8.	Assign responsibility for identifying hazards and conducting risk assessments Implement appropriate controls (engineering, work practice/administrative, PPE) for identified	Yes Yes	-
7. 8.		 	 -
8.	Implement appropriate controls (engineering, work practice/administrative, PPE) for identified	 	 -
7. 8. 9.	Implement appropriate controls (engineering, work practice/administrative, PPE) for identified hazards (e.g. machine guarding, lockout, bloodborne pathogens, confined space, falls from elevation, chemical hazards, repetitive strain injury, etc.)	 	-
	Implement appropriate controls (engineering, work practice/administrative, PPE) for identified hazards (e.g. machine guarding, lockout, bloodborne pathogens, confined space, falls from elevation, chemical hazards, repetitive strain injury, etc.)	Yes	lo
9.	Implement appropriate controls (engineering, work practice/administrative, PPE) for identified hazards (e.g. machine guarding, lockout, bloodborne pathogens, confined space, falls from elevation, chemical hazards, repetitive strain injury, etc.) Implement a preventative maintenance schedule as required by manufacturers' and industry	Yes	lo
