

Actsafes offers hearing testing to motion picture workers.

Section 7.8 (1) of the Occupational Health & Safety Regulation states that employers must give workers exposed to noise that exceeds noise exposure limits, hearing tests at least once every 12 months.

ANNUAL HEARING TESTS IDENTIFY THE BEGINNING OF NOISE-INDUCED HEARING LOSS. LONG BEFORE WORKERS NOTICE IT.

Reliable Mobile Hearing Testing provides this service on Actsafes's behalf. Call Reliable Mobile Hearing Testing at 604-596-8414 or at 604-834-8444 to book your session or for more information.

This service is free* to qualified organizations**.

Each mobile unit can test up to 8 persons per hour (2 every 15 minutes) with a minimum requirement of 6 tests per hour. Workers should be scheduled to attend at a rate of at least 2 persons every 20 minutes.

Ask about doing your hearing testing and your respirator fit testing in the same day!

*Free service is subject to availability of testing staff. Last minute requests can not always be accommodated.

**Qualified organizations include all members of Actsafes Safety Association and any corporation, organization or associations that are engaged in the production of motion pictures and performing arts in British Columbia.
